Incredibly Effective in Defense and Enforcement

In addition to field use, the 300 AAC BLK SCS® (TUI™) represents a smart choice for self-defense purposes. If you prefer a rifle for your defensive peace of mind, this hard-hitting ammunition is definitely for you. Perfect for law enforcement as well, the 300 AAC BLK SCS® (TUI™), with its shocking damage potential and consistent performance, will stop targets with surety to save innocent lives.

Lead-Free and Lethal

300 AAC BLK SCS® (TUI™) rifle ammunition is constructed from the finest quality projectiles, brass, powder and primers to ensure dependable and consistent performance on every expedition. A supersonic round, designed to maximize soft tissue trauma and stop your target fast, this rifle ammo has the weight retention to devastate vital organs. Perfect for stopping thick-skinned targets such as wild hogs, the unique patented shape of the 300 AAC BLK SCS® (TUI™) delivers superb penetration.

The Ultimate in Hunting Ammunition

They can be used wherever lead projectiles are prohibited for hunting or when ethical considerations dictate. You can target game ranging from coyotes and hogs, all the way to larger deer and predators with complete confidence, thanks to the terminal performance and lethal kinetic energy of the 300 AAC BLK SCS® (TUI™). These bullets have the ballistic properties to ensure you get the most from every squeeze of the trigger.
